

BRAND GUIDELINES

LOGO

Boom Business Solutions logo was created to emphasize the forward and upward growth of a business.

The simplicity of the typeface is used to display a bold but not over-powering feel next to the bold arrow pointing right depicting a forward movement, while the sharp points on the ‘M’ illustrate an upward growth.

LOGO

Master Logo

Our logo is a symbol of our brand, an identity piece for Boom Business Solutions. It is the single most important part of our brand.

Consistent use of our logo is key to retaining brand strength through immediate recognition of who we are and what we stand for.

COLOR

Used on any collateral or advertising with a distinctive contrast in colour.

BLACK & GREY

Used on any collateral or advertising with a black and white option only.

WHITE

To be used on any collateral or advertising where distinctive contrast cannot be reached.

LOGO

Secondary Logo Colour Options

The secondary logo is used in place of the main logo when creating emphasis or attention in marketing materials. The secondary logo **should not** be used on any pieces where Boom Business Solutions needs to be supported by the overall brand to create awareness.

COLOR

To be used as a secondary option on any collateral or advertising with a distinctive contrast in colour.
Ex. On a light background or good light contrast on an image.

ONE COLOR

To be used on any collateral or advertising with a one colour Pantone or Spot colour option.
Ex. On a piece where there is one Pantone or Spot color permitted and a light or dark background is used with good contrast.

LOGO

Secondary Logo Reverse Options

The secondary reverse logo is used on dark marketing materials where the colour version cannot be placed due to busy or low contrast areas behind the logo. The secondary logo **should not** be used on any pieces where Boom Business Solutions needs to be supported by the overall brand to create awareness.

COLOUR REVERSED

To be used on any collateral or advertising where distinctive contrast cannot be reached.
Ex. On a dark background or busy image.

REVERSED

To be used on any collateral or advertising with a black and white option only, or alternative colour versions where distinctive contrast cannot be reached.
Ex. On a dark background or busy image.

ICON

Use and Colour

Icons are graphic representations that help to simplify the message quickly. A common use of icons are watermarks in the background, an eye-catching element, statement piece, or social

identity. Icons are a brand’s stylistic extensions. Once the big picture of a brand’s messaging has been established, icons serve as visual tools that help carry out this message.

COLOR

Use as a decorative piece accompanied by the logo. **Never to be used alone** as a prominent branding logo. Must be used on marketing materials with a distinctive contrast in colour.

BLACK & GREY

COLOURS

Our brand is underset with a color palette designed to be fresh and vibrant. Different combinations of colour can dramatically change the tone and appearance of a document so it is important to consider how they will work together. To help achieve greater brand recognition it is important that our color palette is appied constantly.

COLOURS

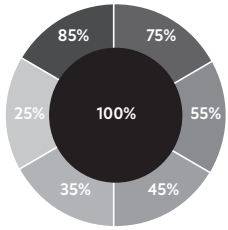

Brand Colours

Our brand colours are divided into three Palettes:
Primary palette: should dominate the colour use. In our case, Onyx and White are our default logo colours, and 90% black is our default type colour.
Secondary palette: are the first colours used beyond black and white.

Sapphire and Amethyst are our hero colours, Agate is our secondary and background color.
Tertiary palette: are the tints and shades that fill the fields beyond the primary and secondary palette.
